

New! Medicines Management Service

Got a query about your medication?

From 15 October 2018, we are launching a new medicines management service for Hamdon Medical Centre patients to help with all your medicine and prescription queries.

Contact us by phone: 01458 270639 between 10am - 3pm), Monday-Friday or by email: somccg.shs-medicinemanagement@nhs.net

The Medicines Management Team consists of trained Prescription Clerks, Pharmacy Technicians and Pharmacists. The team can:

- Answer any queries you have on your current medication or any new medication
- Check if you have any reviews coming up and arrange appointments as required (blood tests, annual reviews for diabetes, asthma etc)

Medication reviews can be done by our Pharmacists, or Pharmacy Technicians, as well as the GP. These can be over the phone, or face-to-face.
